118	Gov't Response to Industry Questions posted on 20 October 2011	23	Question 75	Although the Special Notice posting to FedBizOps of 20 October 2011 included revisions to the technical portions of Sections L and M, no revision to the page limit was provided as stated in the Government response.	Recommend that the Government identify the revision to the page limitation prior to release of the final RFP.	Upon release of the final RFP, Section L, Table I will be revised to increase the page limit of Volume II (Technical) to 75.
